

USER MANUAL

LUMI4COMBY

Version 1.0

Unpacking Instructions

Read Manual before Operation

Dear user,

Thanks for choosing our Mix LED— laser device, believing this brand new product will bring you unlimited marvel and happiness. Before operating this device, please read this manual thoroughly, and retain it for future reference.

Warning Data

Please note the warnings in bold which will ensure the safe and smooth operation. These warnings are important to a certain extent.

Attention! Indicates a skill or other useful information for special situations.

Important! Indicates important information to protect personnel from laser incident or injury.

Caution! Prevent damage or injury from incorrect operation.

Laser! Laser safety warning labels.

Warning!

If the external flexible cable or cord of this luminaire is damaged, it shall be replaced by a special cord or cord exclusively available from the manufacturer or his service agent. Shields, lenses or ultraviolet screens shall be changed if they have become visibly damaged to such an extent that their effectiveness is impaired, for example by cracks or deep scratches.

The lamps shall be changed if it has become damaged or thermally deformed.

Unpacking Instructions

As receiving a fixture, carefully unpacking the carton, checking contents to ensure that all parts are in good condition. Informing the shipper immediately and retaining packing material for inspection if any parts damaged from shipping or device damaged. Keeping packing materials as evidence for shipper's confirmation.

Attention!

This unit is in perfect condition before delivery, please check all accessories when unpacking the unit. User should follow this user manual to operate this unit, and make sure that you are clear on all laser safety information and unit operation before power it on. Any wrong operation will make this unit out of warranty.

Carefully moving after receiving it, checking whether there is any damage from shipping, and all the accessories in it.

NAME	QTY
Laser Light +LED system	1 set
Power Cord	1 pc
KEYS (for key switch)	2 pc
Interlock switch	1 pc
User manual	1 pc
Stand	1 pc
Wireless Footswitch	1 pc
Packing Case	1 set

Safety Instructions

Safety Instructions

To protect the environment, please try to recycle the packing material as much as possible.

The projector is for indoor use only, IP20. Use only in dry locations. Keep this device away from rain and moisture, excessive heat, humidity and dust. Do not allow contact with water or any other fluids, or metallic objects.

Don't throw this product away just as general trash, please deal with the product follow the abandon electronic product regulation in your country.

Locate the fixture in a well ventilated spot, away from any flammable materials and/or liquids. The fixture must be fixed at least 20cm from surrounding walls.

- ◆ To avoid condensation to be formed inside, allow this unit to adapt to the surrounding temperatures when bringing it into a warm room after transport. Condense sometimes prevents the unit from working at full performance or may even cause damages.
- ◆ Don't cover any ventilation openings as this may result in overheating.
- ◆ Don't install it on flammable object.
- ◆ Don not use it when maximum ambient temperature is higher than 40 degree.
- ◆ Unplug the unit when it is not used for a longer time or before replacing the bulb.
- ◆ Don't open the top cover to avoid unit damage.
- ◆ Please use the original packing when the device is to be transported.

Never expose the lens to direct sunlight, even for a short period, this may damage the light effect or even cause fire!

Safety Warnings

- ◆ According to EN 60825-1:2007, this product belongs to class 3R. Direct eye contact may cause injury.
- ◆ This product is for laser show only. The class 3R laser light should be operated by professional operator only.
- ◆ This is so-called show laser, emitting radiation with a wavelength spectrum between 400 and 700nm and producing lighting effects for shows.
- ◆ International laser safety regulations require that the vertical height from installment to ground is more than 3 meters; horizontal distance is 2.5 meters from audience.
- ◆ Never direct the laser beam to people or animals and never leave this device running unattended.
- ◆ The legal requirements for using laser entertainment products vary from country to country. The user is responsible for the legal requirements at the location/country of use.

Warning! Avoid direct eye contact with laser beams during operation, especially when the laser beams stay still, or injury to eyes may occur.

Laser Safety Protection Feature

Warning! The laser security measures are designed according to the specific terms of the relevant international laser safety standards and has the following laser safety protection means.

- ◆ Laser key switch: laser is available only when the key is turned on.
- ◆ Laser interlock switch: Interlock button, any incident happen, light will be closed by interlock.
- ◆ Laser safety labels: The labels of according with European standard are stuck on the device body.

Overhead Rigging & Product Installation

Attention! The installation must be carried out by qualified service personal only. Improper installation can result in serious injuries and /or damage to property. Overhead rigging required extensive experience! Working load limits should be respected, Certified installation materials should be used, the installed device should be inspected regularly for safety.

- ◆ Make sure the area below the installation place is free from unwanted persons during rigging, de-rigging and servicing.
- ◆ Locate the fixture in a well ventilated spot, far away from any flammable materials and/or liquids. The fixture must be fixed at least 50cm from surrounding walls
- ◆ The device should be installed out of reach of people and outside areas where persons may walk by or be seated.
- ◆ The device should be well fixed; a free swinging mounting is dangerous and may not be considered!
- ◆ Do not cover any ventilation opening as this may result in overheating
- ◆ Before the first time use, it must be inspected by professional staff to make sure safety, inspection regularly every year.

Before rigging make sure that installation area can hold the 10 times weight of device. Using the steel rope which can hold 12 times weight of device, through the eye-bolt for assisting hang installment.

AC Power

Please use the attached power, note that power voltage and frequency are the same as the marked voltage and frequency of device when connecting power. Every device' s power should be connected separately, so that device can be controlled individually.

Cable spec. :

Cable(EU)	Cable(US)	Pin	International
Brown	Black	Live	L
Light blue	White	Neutral	N
Yellow/Green	Yellow/Green	Earth	⊕

Product Installation

DMX-512 connection

- ◆ Connection between laser lights and DMX must use the shield cable of diameter more than 0.5mm. Please use the attached 3 pin XLR plug/socket to connect the DMX output/input interface. The connection between socket and cable as below(note the plug/socket' s 3 pin number and position).

DMX-output
XLR mounting-sockets(rear view):

1-Shield
2-Shield(-)
3-Shield(+)

DMX-input
XLR mounting-plugs(rear view):

- ◆ Note, XLR plug/socket' s 3pin can not be touched by inner hull, connection between pins is not allowed. Except above connection, XLR plug/socket can not be connected with XLR control line. Device receives international standard DMX512(1990) control signal.
- ◆ When using standard DMX512 control signal, the last device' s output interface must be connected to a DMX plug. This plug is putting a 120 ohm resistance between "canon" plug' s 2 pin and 3 pin. Showing as below pic. Sticking this plug into the last device' s signal output interface, it will avoid the interference during the process of signal transmission.

Operation instructions

NO	FUNCTION	DESCRIPTION
1	Laser aperture	Laser show, do not look directly into the hole
2	LED strobe lights	4*1W white LED strobe light
3	Microphones	Receiving the audio signal through a microphone, and positive response to the intensity by the potentiometer
4	IR sensor	Receiving the IR control signal through the sensor
5	Power connection	Power output connect with next light
6	Power input	Power input socket, built-in protective tube and spare tube
7	DMX input/output	3PIN male/female XLR interface, for DMX communication
8	Wireless antenna	Receiving the signal of the wireless footswitch
9	Potentiometer	To adjust the sound activated sensitivity
10	LCD control interface	Various mode setting operations of the machine
11	Remote switch	Used to connect the remote button for emergent blackout
12	Key switch	Turn on/off the light. Only authorized people use.

Menu operating instruction

Once after every power on laser, the VERSION and MANUFACTURE INFORMATION will be shown in LED monitor of rear panel. When laser is powered on, LED monitor on rear panel shows the current operating standalone mode or DMX address of DMX mode. With help of LED control panel, is very easy to set and change the operating mode of laser. After every resetting and saved, the new mode information will be shown on LED monitor at next power.

MENU Model choice , return to the previous menu.

ENTER Go into the deeper menu.

UP For higher numeric value operation.

DOWN For lower numeric value operation.

LED display		Functional description
Aut	AutP → AP01–AP18	APAR light auto mode
	AutL → AL01–AL06	Laser light auto mode
	AutF → AF01–AF10	Flash light auto mode
	AutM → AM01–AM03	Mix auto mode
	S.01–S.99	Effect speed adjustment. 01 is the slowest, 99 is the fastest
	M.00–M.99	Motor speed adjustment. 00: motor stops. 99 is the fastest
Sou	SutP → SP01–SP18	PAR light sound mode
	SutL → SL01–SL06	Laser light sound mode
	SutF → SF01–SF10	Flash light sound mode
	SutM → SM01–SM03	Mix sound mode
COL	COLO	Color manual adjustment
	R/G/BXXX	LED color setting
	S.00–S.99	Flash light speed adjustment. S.00: all on; S.99 is the fastest
DMX	d001	Signal reception mode (the worlds will strobe if there' s no signal)
	03/05/09/27CH	DMX channel selecting
	dXXX	Channel address setting
SLA	SLAV	Slave mode
SYS	AddS	Machine position setting: *234; 1*34; 12*4; 123*
	LEDS	LED display power-saving mode.
	TEST	Testing mode: (1) functional testing mode: auto/sound program, testing for 30s; when there' s sound, running sound program; when no sound, running auto mode; to check if the LED chips are OK. And the IR remote control testing, press ON/OFF, blackout operation, to check if the IR remote control is OK. (2) Aging testing: all the LED chips, motor work at the max. power, LED display shows 8.8.8.8.
	REST	Restore the factory initial setup
	W–En	Wireless pedal working mode

Note: In sound model, device will close light in 5 seconds automatically, if there isn' t any sound signal. Light on until sound signal received.

Menu operating instruction

Initial Setting

MENU	UP	DOWN	ENTER	UP	DOWN	ENTER
Built-in auto programs	AP01-AP18 PAR light auto show AL01-AL06 laser light auto show AF01-AF10 flash light auto show AM01-AM03 Mix auto show		ENTER into the next step. To choose the effect speed through the UP/DOWN button.	S.01-S.99: Effect speed adjustment. 01 is the slowest, 99 is the fastest M.00-M.99: Motor speed adjustment. 00: motor stops, 99 is the fastest		ENTER: confirm and back to the previous step.
Built-in sound programs	AP01-AP18 PAR light auto show AL01-AL06 laser light auto show AF01-AF10 flash light auto show AM01-AM03 Mix auto show		Enter to confirm. To adjust the sound sensitivity through the potentiometer.			
COLO color setting	R000-R255 G000-G255 B000-B255		ENTER into the next step. MENU to the previous step.	S.00-S.99: strobe speed S.00: all on, S.99: the fastest		ENTER: confirm and back to the previous step.
DMX mode	03CH/05CH/09CH/27CH		Selecting the channel	d001-dXXX		Setting the address
SLAVE mode	When selecting the SLAVE mode, this machine will follow the master's built-in program through the DMX cable.		ENTER: confirm and back to the previous step.			
System setting	Lighting position setting: *234; 1*34; 12*4; 123*		ENTER to confirm			
	LED display power-saving mode		ENTER into the next step	On: turn on the nixie tube power-saving mode OFF: turn off the nixie tube power-saving mode		ENTER: confirm and back to the previous step.
	TEST: texting mode		ENTER to the testing mode			
	REST: restore the factory initial setup		ENTER to restart the machine			
	W-En: wireless pedal working mode		ENTER into the next step	On: turn on the wireless footswitch working mode OFF: turn off the wireless footswitch working mode		ENTER: confirm and back to the previous step.

NOTES:

- (1) S.01-S.99: program speed adjusting; S.01: the slowest, S.99: the fastest
- (2) A point will be shown on the screen if there's no operation in 30s.
- (3) Machine address bit instruction, face to the LED screen, from left to right, the address is 1-2-3-4.
- (4) The nixie tube will twinkle when there's no signal input to SLAVE, D001.

Remote Control Operation Instruction

Button	Function	Functional Description
	ON/OFF	Power on/off. When power is on, press it to light on; press again to light off; circle as it.
	Mix auto mode	Per click for different sets of Mix auto show (AM01-AM03)
	Mix sound mode	Per click for different sets of Mix sound show(SM01-SM03)
	PAR light auto mode	Per click for different sets of PAR light show(AP01-AP18)
	Laser light auto mode	Per click for different sets of Laser light show(AL01-AL06)
	Flash light auto show	Per click for different sets of flash light show(AF01-AF10)
	Auto/sound switching	Switching between auto mode and sound mode under pattern
	Pause	Program or color change will be paused, no matter under auto mode or sound mode.
	Color changing	Selecting the color of PAR light
	Numeric keys	Adjusting the speed of auto program

Footswitch Operation Instruction

Footswitch Operation Instruction

Function	Functional Description
AUTO	Press AUTO to activate the auto program controls. When working, all the lights will begin in auto mode.
SOUN	Press SOUND to activate the sound program controls. When working, all the lights will begin in sound mode.
COLO	Static color changes.
BLACKOUT	Light off.

NOTE: All the operations from the footswitch is invalid to the DMX mode and the SLAVE mode.
The color control of the footswitch only works for auto/sound mode.

Product Parameter

- ◆ Model: LUMI4COMBY
- ◆ Power: 45W
- ◆ PAR LED: 6*Tri-9W
- ◆ Beam angle: 15°
- ◆ Derby LED: 2*R-3W, 2*G-3W, 2*B-3W
- ◆ LED: R-620nm/100lm, G-520nm/160lm, B-462nm/50lm
- ◆ Laser: G-30mW/532nm, R-100mW/650nm
- ◆ Strobe LED: W-4*1W
- ◆ DMX channels: 3, 5, 9, 27CH
- ◆ Spare parts: T-Bar, stand, carrying bag, wireless footswitch, IR remote control, standing foot
- ◆ Power linking: 30pcs@240V, 14pcs@110V
- ◆ AC power: switching power supply, 100V-240V 50/60Hz (for all international markets)
- ◆ Fuse: T 1.6A, 250V
- ◆ Stand: 1.5m—2.5m (adjustable)
- ◆ G.W: 17kgs
- ◆ Packing size: L1442 × W149 × H591mm
