

GammaPix 48T1X1WF

Outdoor rental 4,8 mm LED screen, 50x50cm tile, black frame & white face LEDs

ORDER CODE: **GAMMAX48T1X1WF**

GammaPix 48T is a rental LED screen for outdoor use with a 4,8 mm pixel pitch, designed to meet requirements for touring, events and install applications. This series is available in both 50x50cm and 50x100cm tiles, mechanically compatible in order to assemble a large surface of screen in a shorter time.

The mechanical design of the tiles has been conceived to allow fast single person installation with automatic lock design and extra safety & handling features such as scratch protection of the lamp face and bottom protection.

GammaPix 48T tiles have on board curve mechanics allowing both concave and convex precise installation of $+10^\circ$ / -10° each tile and the weight has been reduced down to 6,4 kg (50x50cm tiles) and 11,4 kg (50x100 tiles).

The on-board electronics include the latest generation of Novastar A5s receiver card and refresh rate up to 3.840 Hz.
